

Power Dissipation Mount Fixed Resistors

PDM Series

厚聲集團

Excellent Heat Dissipation Capability

Aluminum housed power resistors utilize wire-wound alumina ceramic rod that can withstand high temperature. It has stable technical performance and is good in discharge function.

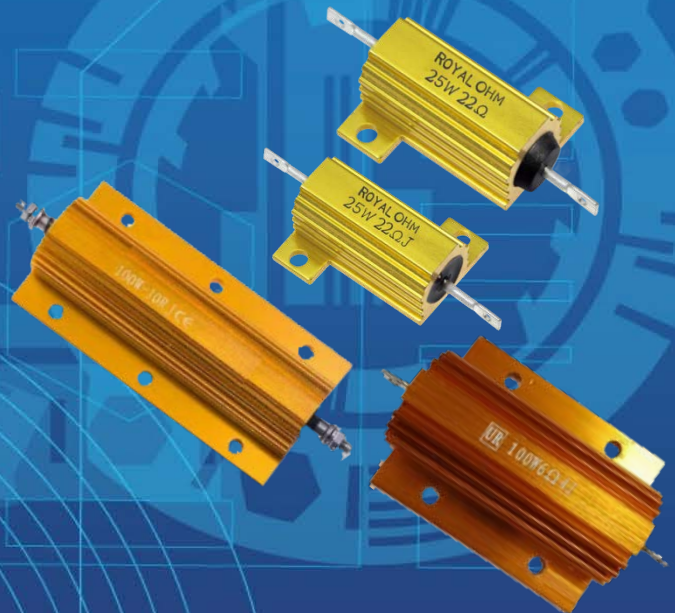

High Power up to 500W

Applications : Battery Management System, Power Supply, Braking Resistors, Balancing Resistors, Adapter, Machine, Industrial tools/controls

Available

- PDMT : 0.5Ω~20KΩ
- PDM1 : 0.2Ω~200KΩ
- PDM2 : 0.2Ω~10KΩ
- PDMM : 0.5Ω~10KΩ
- PDMS : 5.1Ω ~ 20KΩ

High resistive values available
